Twinkly Pre-Lit Wreath – 50 RGB+W Artificial Christmas Wreath, ø60 cm, 16 Million Colors + Warm White – Generation II

Twinkly Pre-Lit Wreath – App-controlled LED Artificial Christmas Wreath with 50 RGB+W (16 million colors + Warm White) LEDs. 60 cm diameter. Green wire. Indoor smart Christmas lighting decoration.

Light up your Christmas with Twinkly Pre-Lit Wreath, a unique and innovative app-controlled garland for your connected home. With a diameter of 0.6 meters, consisting of 50 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Pre-Lit Wreath goes beyond the traditional decorative Christmas lighting. Like all Twinkly products, Pre-Lit Wreath can be mapped and every single LED can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations – Pre-Lit Wreath becomes your screen. Easily configurable via Wi-Fi and Bluetooth®, Twinkly Pre-Lit Wreath is controlled using the free Twinkly App, available for iOS and Android. Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. Twinkly Pre-Lit Wreath can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations. Twinkly Pre-Lit Wreath can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay. Suitable for indoor use only, rated IP20.

Long description

Light up your Christmas with Twinkly Pre-Lit Wreath, a unique and innovative app-controlled garland for your connected home. With a diameter of 0.6 meters, consisting of 50 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Pre-Lit Wreath goes beyond the traditional decorative Christmas lighting.

Like all Twinkly products, every single LED of Pre-Lit Wreath can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations.
Twinkly's patented mapping tool uses your smartphone camera to locate the precise position of each LED in the space, however they are laid out. This powerful and innovative process lets you control your Pre-Lit Wreath like a screen: you can play professional, pixel-perfect effects and animations right on your decoration.

Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. All effects are completely customizable: brightness, speed, intensity, and color can all be modified with a single tap. A color picker helps you choose the perfect shade from more than 16 million options, plus the full spectrum between cold white and warm white. An ON/OFF timer and general dimmer complete your control panel, providing you with unlimited possibilities to create the perfect lighting decoration. Pre-Lit Wreath can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations.

Twinkly Pre-Lit Wreath can be used in combination with Twinkly Music, a small USB device (sold separately) capable of identifying and interpreting any source of music reproduced in your environment, enabling your lights to follow the beat for a WOW-effect audiovisual experience.

Twinkly Pre-Lit Wreath can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay.

Getting started with your Pre-Lit Wreath is super easy: a quick and intuitive setup process helps you configure your device in a matter of seconds via Bluetooth® and Wi-Fi.

Twinkly Pre-Lit Wreath is IP20 certified, suitable for indoor use.
